REASONS FOR ALLOWANCE

1. In response to applicant's amendment filed 7/7/2004 claims 1, 10-11 and 20 have been amended and claims 2-4, 8, 12-14, 18 canceled. Applicant's arguments have been considered and found persuasive in that while each of Hirata and Furushima teaches a multimode section of less than 200 microns, each does not teach the entire length of the gain region being less than 200 microns, as argued and claimed by applicant. Claims 1, 5-7, 9-11, 15-17, 19-20 are pending and allowed.

2. The following is an examiner's statement of reasons for allowance: The claims are allowed mainly because the cited prior art do not teach or fairly suggest a stripe-width modulated semiconductor laser comprising along with all the other features a rectangular plane shaped multimode interference waveguide centered between single-mode waveguide sections and a gain region having a length between 5 micrometers and 200 microns, inclusively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Quyen P. Leung whose telephone number is (571)272-1943. The examiner can normally be reached on 8-4:30, M-F.
